Colligative properties depend primarily on the mass of the solution. True. If a large concentration of salt were added to pure water in a covered beaker, ... Chemistry Chapter 13 Review 22 ...

[Abeka Chemistry-Quiz 19 Flashcards | Quizlet](#)

Aqueous solutions are found throughout our world, and their chemistry depends in part on how much of a dissolved substance is in them. This module explores how substances dissolve, why some substances don't dissolve, and how we express the concentration of a solution. The module describes the forces that hold particles together and interactions that keep dissolved particles apart.
